“Capitalist WiP growth destroys the environment decreasing the nation’s lifeboat resources. Communist WiP growth destroys the environment decreasing the nation’s lifeboat resources. The only difference is that capitalist growth does it faster and with greater economic inequality. When nations choose to follow a Masonic capitalist or communist economic growth or population growth plan; they are buying a ticket on the Titanic liferaft. Whether they purchase a capitalist first-class or communist third class steerage Titanic liferaft ticket,

they are purchasing a Shrinking Lifeboat Titanic ticket; where the end sinking of the WiP capitalist/communist titanic economy liferaft result is the same.” – amended quote of Albert Bartlett

In Garrett Hardin’s: [Living on a Lifeboat](#) and [Lifeboat Ethics: The Case Against Helping the Poor](#); the basic access to resources leadership decision was ‘nations resource lifeboat is not full yet, whom of those drowning in the water; should we give the opportunity to get into our national lifeboat; and whom should we just allow to drown’.

In US Army’s Lifeboat Ethics while not explicitly stated in the course material; that – in terms of [ecological overshoot](#) resource depletion [tipping points](#) and [resource conflict](#) – all nations on Earth’s resource lifeboats are not only full; but shrinking so now the decision is not ‘whom to let in’ but ‘whom should be removed from the lifeboat aka national genepool; how should they be removed; how many should be removed; by whom and when should they be removed’?

Ecology of Peace v WiP NWO Shrinking Lifeboat negotiations questions:

This is a similar question to two EoP v WiP NWO negotiations questions [[PDF](#)]:

- V. Putin: New-EoP-Gotit or [current Masonic] No-Los-Pepes Evacuation Rules?
- A. Muhrteyn: Revolution in Military Ethics question: Defining just and unjust actions in war and military conflict: the operative question: Whom should the military kill?

Summary: Ecology of Peace Culture Shrinking Lifeboat Ethics Answers:

The Ecology of Peace culture’s answer to these shrinking lifeboat questions:

Summary:

Whom should be removed from the lifeboat & how many should be removed:

- All citizens from whatever nation, race, religion or class whose procreation and/or consumption has been and is above ecological carrying capacity limits; who refuse to commit in writing to reduce their consumption and/or procreation to ecological carrying capacity limits; should be evacuated from the planetary genepool lifeboat by national criminal justice government departments.

How should they be removed; by whom and when should they be removed’?

- Worlds Attorney Generals should cooperate to implement an Ecology of Peace international law social contract that requires all the worlds citizens to procreate and consume below ecological carrying capacity limits.
- Once implemented: all citizens from whatever nation, race, religion or class whose procreation and/or consumption has been and is above ecological carrying capacity limits; who refuse to commit in writing to reduce their consumption and/or procreation to ecological carrying capacity limits; should be evacuated from the planetary genepool lifeboat by national criminal justice government departments.
- If or where any nation’s Attorney General obstructs the implementation of Ecology of Peace international law social contract; they should provide reasons for their legal obstruction behaviour to the International Criminal Court; and/if or when they

refuse to do so; should be coerced into doing so by the implementation of EoP Axis Military Necessity Mutual Coercion Psychotronic Evacuation processes which shall psychotronically evacuate lotto nations scarcity combatant and breeding/consumption war citizens who have not signed EoP Axis Oaths from the planetary genepool.

More Info: Ecology of Peace Culture Shrinking Lifeboat Ethics Answers:

Aforementioned Ecology of Peace shrinking lifeboat ethics answers can be found in greater detail in EoP Cop21/Malheur Root Cause problem solving recommendations correspondence; or [Ecology of Peace options](#) to politically, legally and/or militarily implement an Ecology of Peace International law social contract documents. EoP options being: [Amendment of UN Prisoner of War Treaty](#); [EoP Referendum](#); [EoP ICC Complaint](#) and [EoP Military Necessity Mutual Coercion Psychotronic Evacuation](#).

Put simply: Our choices are between Ecology of Peace humane, orderly and relatively non-violent deindustrialization and depopulation; and Masonic War is Peace extremely violent Mad Max race wars, religious wars, four horses of the apocalypse Armageddon deindustrialization and depopulation.

“...an organization cannot have a conservation policy without having a population policy....the problem solving or parasite leeching test — in which the candidate, confronted with an overflowing sink, is classified according to whether he reaches for the faucet or the mop.” – Amended quote of Daniel B. Luten; as quoted by William Milton Cooper in *Behold a Pale Horse*.

“It really doesn't matter, because either way we're screwed. The quicker you understand that, the wiser you become. I believe that any man without principles that he is ready and willing to die for at any given moment is already dead and is of no use or consequence whatsoever. ... If the people really cared about their fellow man, they would control their appetites (greed, procreation, etc.) so that they would not have to operate on a credit or welfare social system which steals from the worker to satisfy the bum. Since most of the general public will not exercise restraint, there are only two alternatives to reduce the economic inductance of the system. (1) Let the populace bludgeon each other to death in war, which will only result in a total destruction of the living earth. (2) Take control of the world by the use of economic "silent weapons" in a form of "quiet warfare" and reduce the economic inductance of the world to a safe level by a process of benevolent slavery and genocide. The latter option has been taken as the obviously better option. At this point it should be crystal clear to the reader why absolute secrecy about the silent weapons is necessary. The general public refuses to improve its own mentality and its faith in its fellow man. It has become a herd of proliferating barbarians, and, so to speak, a blight upon the face of the earth. They

do not care enough about economic science to learn why they have not been able to avoid war despite religious morality, and their religious or self-gratifying refusal to deal with earthly problems renders the solution of the earthly problem unreachable by them. It is left to those few who are truly willing to think and survive as the fittest to survive, to solve the problem for themselves as the few who really care. You must accept that you have been cattle and the ultimate consequence of being cattle — which is slavery — or you must prepare to fight, and if necessary die to preserve your God-given right to Freedom.” Silent Weapons for Quiet Wars; Milton William Cooper; Behold a Pale Horse.

So I am going to provide you a ‘reach for the faucet’ response to Sheriff Mack’s statement in the Truth in Media interview: “To whom can the people turn for peace, safety and liberty; when government becomes out of control and corrupt. If its not your local sheriff; to whom else can you go?”

If any of the disputing parties are sincere about encouraging American veterans, ranchers and citizens to support peace, safety and liberty; I imagine an Ecology of Peace [William Wilberforce](#) and [Eric Liddle](#) would suggest that more than singing Amazing Grace shall be required to free ourselves from [human factory farming slavery enslavement](#); we shall need to have the courage to give up our addiction to the [false left and right wing moral supremacist bullshit propaganda](#) and individual and corporate welfare at the expense of the ecological resource commons that provides us with survival sustenance; and publicly confront the [phallic human sacrifice War is Peace](#) foundation of our secular or theocratic – capitalist, communist, libertarian, socialist, Christian, Muslim, Catholic, Buddhist, etc – religions; and cooperate with national and international authorities to – hopefully nonviolently – [implement an Ecology of Peace](#) international law social contract that requires all the worlds citizens from all races, classes, religions and cultures to procreate and consume below ecological carrying capacity limits.

“If the economy / your bible / Koran / Torah / Talmud / Masonic Constitution is more important to you than the environment; try holding your breath; while you count your money / read your bible / Koran / Torah / Talmud / Masonic Constitution; and tell me what is more important to your survival: protecting the ecological carrying capacity resource foundation of life: our air, water and food by implementing an international social contract that restricts everyone’s breeding and consumption to ecological carrying capacity limits; so that all species on Earth can continue breathing, drinking clean water; and having organic food to eat; or counting your money / reading your Bible / Koran / Torah / Talmud / Masonic Constitution.” – amended quote of Guy McPherson; who coined the term ‘Near Term Extinction’ [NTE] which he writes about on his blog: Nature Bats Last.

~~~~~

General Mike Flynn: [You can’t defeat an enemy you don’t admit exists.](#)

Any form of capitalism that allows citizens to procreate and/or consume above ecological carrying capacity limits; cannot – according to Tragedy of the Commons principles – do anything else but degenerate into predatory capitalism aka fascism. Of interest regarding the future impending consequences of planetary predatory capitalism: Real News: [Paul Jay’s Reality Asserts Itself: Who Makes US Foreign Policy interview of Lawrence Wilkerson](#); particularly the [predatory capitalism](#) part; which deals with the necessity of the great powers cooperating to implement a new economic order; to address the massive impending planetary social conflict problems resulting from climate change, peak food, peak water, peak oil, including how and where to bury 6 billion people.

“If you can't explain it simply, you don't understand it well enough.” - Albert Einstein

1. Economic inequality; psycho-social resource conflict conformity pressures; climate change, food shortages, food inflation, cost of living increases, urban sprawl, traffic jams, toxic waste, pollution, peak oil, peak water, peak food, peak population, species extinction, loss of biodiversity, peak resources, nation states standing army or dissident guerrilla army 'terrorism' resource war military aggression, etc – are a direct and indirect consequence of overpopulation and overconsumption.
2. Overconsumption and overpopulation are a direct consequence of humans procreating and consuming above ecological carrying capacity limits.
3. Humans procreate and consume above ecological carrying capacity limits because the current international law social contract; allows nation states to provide their citizens with the implied 'right to breed and consume with total disregard for ecological carrying capacity limits'.
4. Humans will stop procreating and consuming above ecological carrying capacity limits when legislators amend the current international law and national constitutional social contract statutes that enable procreation and consumption above ecological carrying capacity limits; to specifically require all the worlds/their nations citizens to procreate and consume below ecological carrying capacity limits.

In the – amended – wording of Dr. Al Bartlett: Living on a planet where cultures are based upon Masonic War is Peace right to breed/consume social contract principles is like buying a ticket on the Titanic; if you're smart you go Capitalist first class; or you can go cheap Communist or Primitivist steerage third class. In all cases, the sinking of the culture from ecological overshoot resource depletion result is the same. But if the social contract gives the people the choice, most people would go fast, flashy and first class.

As reported in Nasa funded [Human \(Predator\) and Nature \(Prey\) Dynamics \(HANDY\) studies](#): Humans who engage in [totalitarian agriculture](#), engage in Predator-Prey Growth and Collapse of Civilization/Empire cycles: Greco-Rome, Minoan, Mycenaean, Sumerians, Akkadian, Assyrian, Babylonian, Achaemenid, Seleucid, Zhou, Han, Tang, Song, Parthian, Sassanid, Umayyad, Abbasid, Mauryan, Gupta, Maya, Hittite, Harrapan and Teotihuacan. Collapses result from (1) Ecological Strain and (2) Economic Stratification and include the disappearance of between 90-99% of the populations (from famine, disease and organized violence resource wars) including their kings, Gods, calendars and other complex political and cultural institutions.

Economic Stratification Collapse occurs due to unequal consumption of resources generating Elites vs Commoners. As Elites become sizable and keep growing, they consume more; their over-exploitation results in collapse of resources to the Commoners; who experience famine and collapse. Elites -- due to their wealth -- do not suffer the detrimental effects of environmental collapse until much later than Commoners, which allows them to continue 'business as usual', despite the impending catastrophe; explaining how historical collapses were allowed to occur by seemingly oblivious elites (eg Roman & Mayan cases).

As clarified by Garrett Hardin in [Tragedy of the Commons](#); in the absence of a social contract that eliminates 'breeding/consumption' cheaters from the genepool; a social contract that provides for no 'elimination from the genepool' consequences for 'breeding / consumption war cheaters; effectively results in other members of the culture being forced to engage in breeding / consumption war cheating; for offence or defence of their resources purposes; which sets in motion a breeding / consumption war ratrace. This reality was observed shortly after the invention of totalitarian agriculture; and the elite of the time decided rightly or wrongly that their only option was for the elite to [divide and conquer](#) manage and

profit from the 'breeding / consumption war'; which is one of the 'human sacrifice' 'secrets' of 'oroborous mystery phallic worship religions'.

If economists and journalists are sincere about establishing an economic system based upon resource footprint morality; and abolishing the human factory farming slavery system; I imagine an Ecology of Peace William Wilberforce and Eric Liddle would suggest that to free ourselves from enslavement we shall need to have the courage to give up our addiction to the false left and right wing moral supremacist bullshit propaganda and individual and corporate welfare at the expense of the ecological resource commons that provides us with survival sustenance; and publicly confront the phallic human sacrifice War is Peace foundation of our secular or theocratic – capitalist, communist, libertarian, socialist, Christian, Muslim, Catholic, Buddhist, etc – religions; and cooperate with national and international authorities to – hopefully nonviolently – implement an Ecology of Peace international law social contract that requires all the worlds citizens from all races, classes, religions and cultures to procreate and consume below ecological carrying capacity limits.

Ecological Reality Facts being: (a) Earth is not flat; (b) Earth renewable and non-renewable resources are finite; (c) When humans breed or consume above ecological carrying capacity limits, it results in resource conflict; (d) To sustainably protect and conserve natural resources in accordance to local and national carrying capacity limits; and restrict national and international inter-cultural resource war conflict; humans must implement an Ecology of Peace international law social contract that restricts all the worlds citizens to breed and consume below ecological carrying capacity limits.

All ideas are not equal.

If some Vietnam Phoenix project terrorists have thrown you out of a plane with a parachute; but you don't know how to work a parachute; then the idea of 'I better think about how to pull the ripchord for my parachute so that I can defy gravity with a scientifically proven method of defying gravity: namely a parachute' and 'I can defy gravity with some Masonic verbal gymnastics; and once I have redefined gravity so that it does not apply to fuck honour tits and ass kikes New Yorkers; God will amend gravity in accordance to my Masonic law new definition demands' are not equal.

“Paris is currently choking with ego fuck honour White, Black, Chink, Paki, Coolie, Kike Power environmental moral supremacists; who will continue to whine and whine and whine and whine and whine and whine and whine about food shortages, food inflation, cost of

living increases, urban sprawl, traffic jams, toxic waste, pollution, peak oil, peak water, peak food, peak population, species extinction, loss of biodiversity, peak resources, climate change, feminism, nazism, Islamism, capitalism, communism, militarization of police, etc; while doing sweet goddamn fuck all about the Masonic War is Peace right to breed/consume with total disregard for ecological carrying capacity limits international law social contract; that is the root cause of everything they whine about.”

Put differently:

If the Cop 21 Secretariat gave a fuck about beginning to educate yourselves, those attending your ‘Climate Change Conference’, journalists and the worlds citizens about the scientific ripchord as opposed to the Masonic verbal gymnastics information regarding root causes of Climate Change: namely overpopulation and overconsumption; whose causes are the [Masonic War is Peace](#) -- right to breed and consume with total disregard for [ecological carrying capacity limits](#) -- international law social contract; you would have invited any one of the following speakers to present their information; to begin the educational persuasion process as to how and why it is a matter of [military necessity](#) to implement an [Ecology of Peace](#) international law social contract; that restricts all the worlds citizens from all races, classes and religions to breeding and consuming below [ecological carrying capacity limits](#).

Current International Law Right to Breed & Consume:

There are many examples of current international law statutes that directly and indirectly provide citizens with the right to breed and/or consume above ecological carrying capacity limits; and lawyers, prosecutors and Judges who apply them, all while pretending their courts are concerned with ‘truth’ and ‘evidence’; pretending they have fuck all clue why and how those statutes result in food shortages & inflation, cost of living increases, urban sprawl, traffic jams, toxic waste, pollution, peak oil, peak water, peak food, peak population, species extinction, loss of biodiversity, peak resources and climate change; inter-racial, religious and cultural social conflict; psycho-social conflict; not to mention overpopulation and consumption resource depletion and scarcity induced [resource wars](#); which sometimes manifest as genocide and holocausts.

Put simply: unlike [Arthur Edens](#) and [Michael Clayton](#) – they are in total denial that they are Sheva the legal cryptic gods of death.

[..]

Summary of the origins and practices of Sheva & Lucifer the cryptic gods of death:

The following are – in my view relevant excerpts from – EoP PoW et al -v- Norwegian Nobel Committee et al; for your consideration:

-----Excerpt: EoP PoW et al -v- Norwegian Nobel Committee et al -----

AnthroCorpocentric Jurisprudence’s Innocence for Sale Indulgence Legal Matrix:

“Corporations are a Frankenstein monster which States have created by their corporation laws.” - Supreme Court Justice Louis D. Brandeis, 1916

“Every right must be evaluated in the network of all rights claimed and the environment in which these rights are exercised. If we hold that every right, “natural” or not, must be evaluated in the total system of rights operating in a world that is limited, we must inevitably conclude that no right can be presumed to be absolute, that the effect of each right on the suppliers as well as on the demanders must be determined before we can ascertain the quantity of right that is admissible. From here on out, ours is a limited world. Rights must also be limited. The greater the population, the more limited the per capita supply of all goods; hence the greater must be the limitation on individual rights, including the right to breed. At its heart, this is the political meaning of the population problem.” – Garrett Hardin, Limited World, Limited Rights

Civilized Patriarchy’s Legal Matrix Reality doctrine -- the Inalienable ‘Right to Breed and Consume, but you need a License to Own a Gun, a License to Drive a Car, a License to Practice Law, a television license, a credit license, a license to earn a living, a university exemption license, a license to fish, a license to hunt, a liquor license, a business license, a marriage license, in some U.S. states, five year olds, even need to get a license to run a lemonade stand on their front lawn -- hypocritically referred to as the ‘rule-of-law’ is a legal world of lawyers, politicians and priests, who prefer to negligently ignore, plausibly deny, or socio-psycho-phallicly benefit from the conquer-and-multiply and divide and conquer control over the means of human reproduction and consumption. It is a Matrix reality, of legal, political and religious indulgence salesmen.

It is a legal world, very similar to the Matrix religious world that existed before Martin Luther confronted the religious indulgence salesmen with his Ninety-Five Theses, on the Church of All Saints, on 31 October 1517, thereby initiating the Protestant Reformation.

In the Catholic Church’s religious Matrix world, only Catholic Bishops were entitled to be interpreters of the ‘word of god’. Only they could decide what God meant, about who was guilty and who was innocent, who would go to hell and who would go to heaven. God did not speak to common people, except via the Catholic Church’s bishops.

In Civilized Patriarchy’s Legal Matrix world, only those who swear blind obedience to Civilized Patriarchy’s Legal Matrix world – lawyers, prosecutors and judges – are deemed to possess the supposed superior intellectual Legal Godlike capabilities, to decipher, decode and interpret the ‘word of civilized patriarch gods’, hence capable of deciding which of us

mere Commons surplus cannon fodder mortals acts of commission, or omission, is 'lawful' or 'unlawful'.

Civilized Patriarchy's Legal Matrix 'AnthroCorpocentric law' is based upon Flat Earth 'jurisprudence', as per the demands of those capable of purchasing Flat Earth legislation indulgences which make their ecologically – breeding/consumption war -- criminal acts, to be deemed as 'legal/lawful' conduct by the Legal Matrix Bishops: lawyers, prosecutors and Judges.

It is a Matrix world of legal indulgence salesmen; who -- 'Contempt in Facie Curiae' -- demand the public's sycophantic submissive obedience; for their supposed superior intellectual Godlike capabilities, to decipher, decode and interpret which of us mere Commons surplus cannon and vote fodder mortals acts of commission, or omission, is 'lawful' or 'unlawful'.

Thieving, Conquering, Murdering and Culling Acts of Un/Lawfulness:

"Military men are just dumb, stupid animals to be used as pawns in foreign policy." - Henry Kissinger; *The Final Days*, by Bob Woodward & Carl Bernstein

Surplus vote fodder citizens may convert to becoming cannon-fodder citizens by joining the military to commit conquering or culling acts of murder and theft, as long as their murder and theft is sanctioned as a lawful conquer, culling or theft order, by one or more groups of left/right conquer-and-multiply legal indulgence salesmen.

In this Matrix Reality legal world, soldiers tasked with the national security conquering and culling responsibilities, of conquering to thief another tribe's resources, and culling population 'useless eaters' and 'oxygen thieves' surplus population excesses; on behalf of the conquering and culling profiteering demands of civilized patriarchy's civilian corporate and political elite; constantly find themselves confronted with the conquer-or-culling "Befehl ist Befehl" Catch 22 dilemma:

To obey, or not to obey, a 'Lebensraum', 'Difaqane', 'Operation Freedumb' and the thousands like them, order to conquer or cull; since a lawful conquer or culling order, by one group of left/right conquer-and-multiply legal indulgence salesmen, can easily be reinterpreted to be an unlawful order, by another group of opposing left/right conquer-and-multiply legal indulgence salesmen; presenting a Catch 22 dilemma from which there is no legal escape.

One who refuses a 'lawful' conquering or culling order will still probably be jailed for refusing orders, and one who accepts an 'unlawful order will be jailed for committing unlawful culling or conquering acts.

Who decides, what is, and what is not, a conquering or culling *lawful*, or *unlawful* order?

The 'Inalienable Right to Breed' Matrix Reality conquer-and-multiply indulgence salesmen, with their specious justifications, and nightmare of Legal Matrix reality generated bureaucratic stare-decisis cryptic rules and statutes, of course!

"I don't know what you mean by 'glory,'" Alice said.

Humpty Dumpty smiled contemptuously. "Of course you don't—till I tell you. I meant 'there's a nice knock-down argument for you!'"

"But 'glory' doesn't mean 'a nice knock-down argument'," Alice objected.

"When I use a word," Humpty Dumpty said, in rather a scornful tone, "it means just what I choose it to mean—neither more nor less."

"The question is," said Alice, "whether you can make words mean so many different things."

"The question is," said Humpty Dumpty, "which is to be master—that's all."

-- Through the Looking Glass, by Lewis Carroll

Anthropocentric Master's of 'Relevance' Jurisprudence:

The question in a civilized patriarchy court is only concerned with who is the master of one word: '*relevance*'.

Any question or answer that exposes civilized patriarchy's Legal Matrix system for what it is; a system far more corrupt than the Catholic Church's Indulgences for Sale religious matrix, is simply deemed as 'irrelevant'.

It is 'irrelevant' that legislators, lawyers, courts and judges defy the laws of ecology with a massive 'fuck you', by legislating, interpreting and enforcing Legal Matrix doctrine, that encourages citizens to breed and consume above cultural carrying capacity limits.

It is 'irrelevant' that legislators, lawyers, courts and judges know that legislation which ignores carrying capacity limits results in ecological overshoot, surplus vote-cannon-fodder populations, economic hierarchical inequality, and scarcity induced local, national and international conflict.

It is 'irrelevant' that legislators, lawyers, courts and judges know that legislation which enables ecological overshoot in multi-cultural/ethnic/religious communities, manifests as inter-cultural / ethnic / religious conflict.

It is 'irrelevant' that legislators, lawyers, courts and judges know that inter-cultural / ethnic conflict is a great divide and conquer tool to manipulate the proletariat to perceive other cultural/ethnic proletariat as the source of their own overshoot-scarcity-conflict misery.

It is 'irrelevant' that legislators, lawyers, courts and judges sit in judgement about an accused's case of theft or murder; while consciously ignoring the theft and thievery and participation in mass murder of the civilized patriarchy corporate elite, who purchased 'Innocence for Sale' Indulgences from legislators to avoid legislation that defines their ecologically criminal acts of billion and trillion dollar thievery and murder as 'unlawful'.

What is relevant?:

It is relevant that civilized patriarchy's penis constitutions human factory farming rights to breed and consume, is to be master —that's all.

Who says so?:

Civilized Patriarchy's ecologically illiterate Legal Matrix Legislator's, lawyers, judges and prosecutors ego-genitals say so!

Totalitarian Agriculture as the source of Taker resource scarcity social-conflict contract problems:

The problems with Taker social contract occurred with the invention of Totalitarian agriculture; which describes the behaviour of humans who violate their original indigenous tribal territory's by choosing to engage in surplus food production (economic growth); resulting in surplus human (population growth).

When any tribe of humans overbreed and/or overconsume the natural resources in their perceived tribal territory; they travel beyond their tribal territory to go and find resources they have over-consumed and degraded. When such a tribe enters another tribes territory, then conflict occurs (from economic, political to physical, an organized violence warfare). To limit inter-tribal territorial resource acquisition conflict, all tribes must agree to limit procreation and consumption to their tribal territory ecological carrying capacity limits.

Simplistically the history of war can be summed up as: Every single battle between two groups of racial, religious, ethnic, or ideological warriors, engaged in organized violence resource thieving or defence, since the advent of [totalitarian agriculture](#), was a result of one or both of those tribes having overbred and/or overconsumed, and engaging in resource thieving into another tribes territory.

Since the beginning of humans (whatever you believe that beginning to be) humans lived in nomadic hunter gatherer tribes, like the Bushmen, Aborigine's, etc. Male duties were to hunt and protect the tribe. Women's duties were to forage and nurture the young. Both men and women contributed to the tribe's economic resources and duties, hence power was shared reasonably equally. Tribes were concerned about not overbreeding; since such overbreeding resulted in the resources in a territory being depleted quicker, and less resources for the rest of the tribe; requiring them to move to new territories. After three million years of humans living like hunter gatherers, it is estimated that the human population at the beginning of the Neolithic period was around ten million.

Then things changed very quickly for the tribes who invented Totalitarian agriculture. Women invented agriculture, resulting from their close association and experimentation with seeds and plants, in their role as foragers. This change occurred because some tribes started practicing a particular form of 'surplus agriculture' (hereinafter referred to as 'totalitarian agriculture') where farmers grew large surpluses of stored food. The consolidation of agriculture results in the centralization of political power: cities & civilization. Before the discovery of oil and coal, the practice of totalitarian agriculture farming was far more labour intensive than hunting and subsistence farming; so men took over agriculture; and women were now relegated to being brood sows, to breed economic and cannon fodder: children to work in the fields or be soldiers. Surplus food meant that some members of the tribe could now work in other specialized fields: soldiers, clerks, etc; and also that the tribes could grow their tribes population. World population doubled in three thousand years; and again in only two thousand years. It jumped from ten million to fifty million—probably eighty percent of them being practitioners of totalitarian agriculture. It was getting crowded.

Beginning of War is Peace War resulting from overbreeding and overconsuming: In all of three million years, humans had never been crowded anywhere. But now the people of practicing totalitarian agriculture were learning what it means to be crowded. Overworked, overgrazed land was becoming less and less productive. There were more people, and they were competing for dwindling resources; and people now began to organize their tribes into forms of standing armies to fight for land or resources. The tribes first war-making machinery: warlords—kings, princes, emperors and their nation states formed for the purpose of armed defense and aggression. "It's during this period that we see the standing army forged as the monarch's sword of power. Without a standing army, a king is just a windbag in fancy clothes. But with a standing army, a king can impose his will on his

enemies and engrave his name in history—and absolutely the only names we have from this era are the names of conquering kings. No scientists, no philosophers, no historians, no prophets, just conquerors. For the first time in human history, the important people are the people with armies.”

Evolution of War is Peace War: Advancement and acquisition of Human and Military Technology and Capital vs Breeding of CannonFodder: In a battle between two armies with the same level of military skill and technology; generally the bigger army wins. Many of history’s military conquerors have relied on simply growing cannon fodder to slaughter on the battlefields to win their battles or wars. Some military conquerors focussed on improving their soldiers skills (psychological, physical, intellectual, spiritual, etc), technology (better armor, better swords, better chariots, better bows and arrows, better scaling machines, better rams, better artillery, better guns, better tanks, better planes, better bombs, better rockets, better nerve gas, better germs, better chemicals); and legal moral supremacist ‘innocence for sale’ indulgence interpretations psychological warfare doctrine. Many times small armies with greater technological equipment and/or military tactical or strategic skills won: There are many examples, but two are Battle of Blood River (guns), conquest of North and South America ([guns, germs & steel](#)).

WiP Resource Conflict: Initially economic, then political, and finally military organized conflict: Centuries of conflict over resources generated an international law social contract founded upon Masonic phallic force (rule of force international treaties); that rewarded those who engage in [seething energies of lucifer](#) breeding and consumption wars; which bribe their tribes members to believe it is their 'inalienable [freedumb slavery] right' to breed and consume above carrying capacity limits; while denying personal responsibility for the human factory farming organized violence conquer and culling racism, sexism, nationalism, socialism, capitalism, nazism, islamism, zionism, corporatism, stalinism, [human sacrifice culling](#), etc consequences; as people are motivated beyond retardation (motarded) to choose to join one or other ideological, religious, racial or cultural tribe to engage in resource war thieving to accumulate more resources to grow their tribe to enable it to protect itself from another tribes organized violence resource war thieving.

Totalitarian Agriculture’s Luciferian Evil Human Sacrifice Harvest Religions:

“When The Mason learns that the Key to the warrior on the block is the proper application of the dynamo of living power, he has learned the Mystery of his Craft. The seething energies of Lucifer are in his hands and before he may step onward and upward, he must prove his ability to properly apply this energy.” - Manly Palmer Hall, *Illustrious: the Lost Keys of Freemasonry*

"in this case the defendants are not simply accused of planning or directing wholesale killings through channels. They are not charged with sitting in an office hundreds and thousands of miles away from the slaughter. It is asserted with particularity that these men were in the field actively superintending, controlling, directing, and taking an active part in the bloody harvest." - Nuremberg Military Tribunal, United States of America vs. Otto Ohlendorf, et. al. ("Einsatzgruppen trial"), Judgment.

All civilized religions — from Christianity, to Gnosticism, etc — were ‘created’ in the minds of man to comprehend the concept of ‘evil’ (aka organized violence), subsequent to man’s invention of agriculture, approximately 10,000 years ago; and where such agriculture created food surpluses, resulting in population surpluses, and expansion of their territory resulting in population pressure clashes with other tribes territories, resource war conflict.

Extended misery resulting from direct and psychic existential conflict resulted in man’s attempt to understand so-called ‘evil’; or put more simply: the organized resource thieving

direct conflict (rape, murder, slavery, etc) resulting from population pressures and escalating relations with fellow humans based upon the absence of consent, i.e. extended periods of psychic and physical violence and coercion.

If there are two or ten people living on an island with enough food and other resources and space, for one hundred people; there is no need to coerce another for food or resources freely and abundantly available. In the absence of a resource scarcity conflict mindset, and plenty of space, tribal relations are more conducive to cooperation and sharing. Living in the moment. There is no need for an external God in the sky to explain 'evil'; there is only a consciousness to appreciate the source of resource abundance, as the 'source of life'; and to live in harmony with such source: nature. Violence is limited to food chain violence experienced by all species; namely hunting and being hunted by another predator for immediate food. [See also: Law of Limited Competition]

If the tribe introduces agriculture, which results in an agricultural surplus and uses such agricultural surplus to justify greater population; then as the population increases, so the population pressures increase. There is less space to run away from someone who may be temporarily angry, or wanting something another is not willing to provide in that moment. The existence of 'evil' (organized violence) is plausibly directly proportional to the resource war conflict, resulting from the tribe's violation of carrying capacity limits; and/or coming into contact with another tribe's territorial expansion as a result of their violation of carrying capacity limits. In attempting to understand the existential meaning of this symptom of 'evil' resulting from violation of carrying capacity limits resource war conflict, man created religions...

The invention of agriculture and agricultural surpluses, and subsequent organized violence of civilization are the biblical story of Adam and Eve's loss of living in carrying capacity harmony with the natural world resource abundant paradise, and Cain's choice to be a farmer. Others saw opportunities for socio-political status benefits from exploiting the reality of organized violence (evil), and suppressed this conscious reality of their intentions by invoking various phallic 'right' justifications for their 'right' to engage in organized violence (evil).

The Mason's 'seething energies of lucifer' are the psychological warfare art of manipulating and coercing men and women to overbreed and overconsume, to thereby aggravate resource war conflict, and the ability to divide and conquer people's, for the socio-political profit of the 'warrior', to 'step onward and upward'; as he 'proves his human sacrifice ability' to apply his breeding war and consumption war energies. Put differently, the 'seething energies of lucifer' are no less than the phallic justification for profiting from aggravating and perpetuating deliberate organized violence, without the consent of the recipients of the violence.

Totalitarian Agriculture WiP Tower of Babel Empires that violently collapsed: Humans who engage in totalitarian agriculture, engage in Predator-Prey Growth and Collapse of Civilization/Empire cycles: Greco-Rome, Minoan, Mycenaean, Sumerians, Akkadian, Assyrian, Babylonian, Achaemenid, Seleucid, Zhou, Han, Tang, Song, Parthian, Sassanid, Umayyad, Abbasid, Mauryan, Gupta, Maya, Hittite, Harrapan and Teotihuacan. Collapses result from (1) Ecological Strain due to procreation and consumption above ecological carrying capacity limits; and (2) Economic Stratification; and have included the disappearance of between 90-99% of their populations (from famine, disease and organized violence resource wars) including their kings, Gods, calendars and other complex political and cultural institutions.

Cop 21 negotiators agree to support international law legislation requiring all the worlds nations political parties to agree to implement national legislation by 11 September 2016; that requires all their citizens to procreate and consume below ecological carrying capacity limits. Any political party which refuses to cooperate; is to lose their political party license; and any nation that refuses to remove the violating political party's license may be legally charged in an international court; by any individual in that nation or another nation with the intention to bribe their citizens to overbreed or overconsume; which shall be considered crimes of aggression acts of war; punishable by the death penalty for every single member of that political party.

Once implemented all political parties will be on an even playing field and will no longer be able to bribe their citizens with individual or corporate welfare to vote for their political party. Politicians shall have to find their [Thomas Sankara](#) backbones; to cooperate with their citizens to teach them how to become cooperating self-reliant sustainable nations.

- *Success: EoP NSA & FSB Forensic Data [PDF] → ZA: Capetown: 27 Feb: Paarl: Murder: Shamonique Claasen, 10. Anker tot Sukses / Anchor to Success: How does NATO's New Strategic Concept define 'Success' of its Mission?*

NATO's Allied Command Operations, Strategic Communications Chief for Supreme Headquarters Allied Powers Europe (SHAPE), Mr. Mark Laity implies that NATO welcomes and appreciates a "full and frank exchange of ideas", on issues pertaining to the mission of SHAPE StratCom, enunciated as: "To put information strategy at the heart of all levels of policy, planning and implementation, and then, as a fully integrated part of the overall effort, ensure the development of practical, effective strategies that make a real contribution to success."

I do not know how NATO Generals or Admirals define 'success'. As you are no doubt aware, 'success' is an abstract concept, which means many different things to different people. For example: "You may think you understand and agree with me when I say, "We all want success." But surely we don't all want the same things. Success means different things to each of us, and you can't be sure of what I mean by that abstract term. On the other hand, if I say "I want a gold Rolex on my wrist and a Mercedes in my driveway," you know exactly what I mean (and you know whether you want the same things or different things). Can you see that concrete terms are clearer and more interesting than abstract terms?" -- Abstract, Concrete, General, and Specific Terms, by John Friedlander, Assoc. Prof., English Dept. at Southwest Tennessee Community College

Excerpt: Jus Sanguinis: 'Boere-Volkstaat for African White Refugees' Petition to NATO Military Committee: Chiefs of Staff; c/o SHAPE & NATO Sec. General Anders Fogh Rasmussen.

do not yet understand, the modern plague of overpopulation is soluble by means we have discovered and with resources we possess. What is lacking is not sufficient knowledge of the solution but universal consciousness of the gravity of the problem and education of the billions who are its victims. The only way our overpopulation and overconsumption problems can be solved. First the white man and the black man have to be able to sit down at the same table. The white man has to be able to feel free to speak his mind without worrying about hurting the feelings of the negro. The so-called negro has to feel free to speak his mind without worrying about hurting the feelings of the white man. The soldiers have to be able to feel free to speak their minds without worrying about hurting the feelings of the civilians. The civilians have to feel free to speak their minds without hurting the feelings of the soldiers. If Lyndon Johnson had gone to Martin Luther King and said: Please help me to educate my Texas Aryan Brotherhood brothers about Ecology of Peace facts reality; so that we can work together to implement an American constitution based upon Ecology of Peace factual reality that requires all of America’s citizens to procreate and consume below ecological carrying capacity limits and set an example for the world to follow in our footsteps: what would King and African-Americans response have been?

Would they have said:

I think it’s an excellent idea. I don’t know if it can be done; but lets work together and cooperate to see if it could be possible. Here is how you can help me; how can I help you? What are our basic Ecology of Peace facts premises....? and so on....

If so: They would have helped in the investigation to draw up the Ecology of Peace Reality facts working hypothesis conclusion that: (a) Earth is not flat; (b) Earth renewable and non-renewable resources are finite; (c) When humans [breed or consume above ecological carrying capacity limits](#), it results in [resource conflict](#); (d) To sustainably protect and conserve natural resources in accordance to local and national carrying capacity limits; and restrict national and international inter-cultural, racial and religious resource war conflict; humans must reform and/or abolish the [Masonic War is Peace](#) international law social contract; and cooperate to implement an [Ecology of Peace](#) international law social contract that restricts all the worlds citizens, from all races, religions and classes; to breed and consume below ecological carrying capacity limits.

If we hold that every right, “natural” or not, must be evaluated in the total system of rights operating in a world that is limited, we must inevitably conclude that no right can be presumed to be absolute, that the effect of each right on the suppliers as well as on the demanders must be determined before we can ascertain the quantity of right that is admissible. From here on out, ours is a limited world. Rights must also be limited. The greater the population, the more limited the per capita supply of all goods; hence the greater must be the limitation on individual rights, including the right to breed. At its heart, this is the political meaning of the population problem.” – Garrett Hardin, Limited World, Limited Rights.

- *Mike Harari: Mossad, Bali & 9/11*: In May 2014, Thai security officials stole some important legal documents from my case-file in their supreme court (it was the old case dragging on from 2003, which was jointly instigated against me by the Israelis, Americans, and by their Thai flunkies; the actual setup was organized by Mike Harari, acting under aliases of "Doctor Haji Mohammed Hussein"). Once the Thais stole the said documents from the case-file, they created a situation where I could be thrown into their prison once again (as if it was not enough for them that I spent more than one year in their jail in 2003-2004). And indeed it happened. I was sent to their prison for one year in May 1, 2014.

The chief organizer of 911 invites YOU and YOU only to a breakfast to celebrate the 911 attacks?

To continue answering your questions. Yes, it was only me alone who was invited and no one else, but it is not the main point of my story at all. The main point is that I know why the WTC was pulverized during its collapse and I can explain the process in precise detail, as well as explain in exact details any other parts of the 9/11 attack, including all seeming 'inconsistencies' which no one else could satisfactorily explain so far.

To be honest, I could tell you that a larger half of the Arab and Pakistani communities in Bangkok, not to mention Russian, Serbian, Iranian and others were openly celebrating the 9/11 event because it was love from first sight. The 9/11 attack was ugly judging from the point of view of the American people and from their obedient allies, but when it comes to the rest of the bipeds the 9/11 attack seems a bit beautiful in performance.

The US officials knew perfectly well who did the 9/11 and they even know WHY they were punished in such a manner. But they can not do anything against the real culprits, because it was them - the US officials, who did the most of the actual crimes related to the 9/11 event.

So, there is nothing to complain about.

What the chief organizer (Mike Harari) thinks about you now? I think he does not give a #####, neither do I. As I have told you the Americans can not even bring him (Mike Harari) to the court, because he did not do much in reality.

All he did was this: He rented offices on the necessary floors of the WTC twin towers and had explosives installed to imitate plane impacts and holes, plus he arranged for cameramen to film the 'planes' (he means the scenes with stand-in actors where the planes would then be digitally inserted into the video later, TBFWS Editor), plus he arranged for a missile with broken detonators to be fired into the Pentagon. Nothing more than that.

The US officials did the rest: they shoot down two planes (with people onboard to publicly account for the WTC two explosions); they brought remains of one plane to the Pentagon site; they demolished the twin towers (with human beings still inside and around); moreover, they demolished the WTC-7 building; they sent unprotected workers to clean up 'ground zero'; they sent anthrax letters implying that they were sent by Saddam Hussein emissaries, etc, etc, etc...;

Just compare the amount of guilt of the real 9/11 organizers and that of the US officials.

So, the real 9/11 organizer does not give a ##### really. Because all the high-ranking US officials know who did it anyway and my book would not add to their knowledge. It would only add to the knowledge of the general public.

If you think I know the entire 9/11 story, of course I do not know the entire chain of events in precise details (such as, for example, the exact details of the plane 'hijackings' or the names of the low-ranking Freemasons involved in the setup, or the exact details of how exactly they pressed the red buttons and who exactly convinced them to do so and on which minute and second of the day)."

- AnthroCorpocentric Jurisprudence’s Innocence for Sale Indulgence Legal Matrix: “Corporations are a Frankenstein monster which States have created by their corporation laws.” - Supreme Court Justice Louis D. Brandeis, 1916
 “Every right must be evaluated in the network of all rights claimed and the environment in which these rights are exercised. If we hold that every right, “natural” or not, must be evaluated in the total system of rights operating in a world that is limited, we must inevitably conclude that no right can be presumed to be absolute, that the effect of each right on the suppliers as well as on the demanders

must be determined before we can ascertain the quantity of right that is admissible. From here on out, ours is a limited world. Rights must also be limited. The greater the population, the more limited the per capita supply of all goods; hence the greater must be the limitation on individual rights, including the right to breed. At its heart, this is the political meaning of the population problem.” – Garrett Hardin, Limited World, Limited Rights

- [McVeigh words to court](#): For two days, the jury discussed McVeigh's fate. On Friday, June 13, 1997, the jury's decision was announced: death. Two months later, McVeigh returned to Judge Matsch's courtroom to hear the formal pronouncement of his sentence. Asked by the judge if he had anything to say, McVeigh quoted from a 1928 dissenting opinion by Supreme Court Justice Louis Brandeis: "Our government is the potent, the omnipresent teacher. For good or ill, it teaches the whole people by its example.' That's all I have." After Matsch pronounced the sentence of death, McVeigh was escorted from the courtroom by federal marshals, to be readied for transport to Florence, Colorado, the site of a federal prison known as "Supermax."

[PNG](#): Its Not About the Nail | Terence McKenna: Masonic War is Peace industrial civilization is a pointed loaded gun | Departed [PNG](#): Cops or Criminals: When facing a loaded gun; what's the difference? | Group Therapy: Sometimes it Works!

If your activism to end racism, slavery, oppression, climate change; food shortages, food inflation, cost of living increases, urban sprawl, traffic jams, toxic waste, pollution, peak oil, peak water, peak food, peak population, species extinction, loss of biodiversity, peak resources, climate change, feminism, nazism, Islamism, capitalism, communism, militarization of police, etc; does not include discussion of the root – ‘right to breed / consume with total disregard for ecological carrying capacity limits’ clauses of the Masonic War is Peace social contract –overpopulation and consumption causes of those socio-economic, psycho-political and ecological resource war problems; your activism is just another ‘[Its not about the Nail](#)’ Masonic War is Peace Bullshit the Public Relations Stunt.

If the nail you are hammering is to abolish the Masonic War is Peace social contract and replace it with an Ecology of Peace social contract; then that nail is simultaneously addressing a multitude of ecological overshoot problems: whether crime and violence, unemployment and poverty, food shortages, inflation, political instability, loss of political freedoms, conformist political correctness, vanishing species, garbage and pollution, urban sprawl, traffic jams, toxic waste, resource depletion, etc.

Put simply the nail is in the bulls eye target zone, and each hammer strike, sends problem solving solution ripples to each of all of these problems; whereas if you find a nail and stick it in only one of these problem areas; each hammer strike is pointless; because in the absence of addressing the root cause of the problem: Masonic War is Peace ‘right to breed/consume with total disregard for ecological carrying capacity limits’ social contract; the particular problem you are focussed on is only going to get worse; as the tap of overpopulation / overconsumption-ecological overshoot resource scarcity grows and grows and grows.

NB: Ecology of Peace observations and interpretations caveat:

Any interpretation herein implied of another persons motives could be anything from 0% upto 100% correct or incorrect. Until confirmed; they are only working hypothesis interpretations; NOT FACTS.

Reminder: Factual Reality is founded upon FACTS: if overt: what happened, who said what, who did what to whom, how and when. We create the world by noticing who, what, when and how via our senses of sight, sound, smell, taste, and touch. Interpretive Reality is founded upon the INTERPRETATION OF FACTS: Generally speaking when we consider 'why' the observed individual overtly or covertly did or said what and how and when; we enter into subjective interpretive reality. If the whom, when, how or what act is not factually unequivocal -- i.e overt -- but covert and hidden; then a puzzle combination of smaller evidentiary facts can enable an interpretation of 'how'; 'when'; 'who' and/or 'what'. 22 Apr Earth Day Local Events: JAG Steel Law:

[Afrikaner Guana Guy: Name is equivalent to “Reg: Law; and Hard as in steel”; includes ‘swan’ and ‘pool’] called yesterday. My cellphone cut off; battery was too low. So I sent him an SMS; informing him that I had sent him an email; which informed him that my cellphone battery was flat; and asked him what he wanted. Today I went to pick up his guano [pigeon poo of his racing pigeons]; as I usually do for composting. He said he had never received my email; which I had sent to his gmail account. I said sometimes there are strange things going on with my computer; cell phone and stuff. He said he wanted to speak to me about some compost. The property he rents had just doubled; as the people who used to live next door had moved out; and the owner of that property was the same as the owner from whom he rents. So he decided to rent both properties. He is fixing up the property next door; to fit in with the guesthouse he runs on the original property. The next door property needs a lot of fixing up; but has a huge garden. In one corner was a large heap of leaves they had raked up under a tree; some of which had turned to compost. I said I did not have access to enough space for it all. I suggested he make a nice compost bin in the corner; and use some of the space in the garden for fruit/food garden; and the compost would be very useful. He got angry and said he needs to make a profit; he is not interested in utopia ideas that don't make any money; that he needs to survive. I said my suggestions were in accordance to preparing for the consequences of peak oil [having access to food to eat; that is grown on your own property and does not require money to purchase]. He said his clients would not find a food/fruit garden to be pretty and pleasant garden. I said I guess we will just have to agree to disagree; that we have different points of view about what people consider beautiful and what they need to survive. He agreed. He also said he had another pigeon racing friend; who had guano I could pick up [His name is same as one of the Navy prosecutors in JAG tv series]

Blackout:

"No one could predict what is about to happen. Nobody is allowed into city hall cause the metal detectors arn't working. .. One hundred power plants shut down affecting fifty million people in two countries... An emergency has been declared in New York State. In a matter of seconds, fifty million people simply fall off the grid. Phone lines and water systems fail. Thousands of people are trapped in elevators and subways. ... It is August 14th, 2003... and the largest blackout in North American history causes six billion in damages. The official cause: overgrown trees on the power lines; but there is more to this story than troublesome trees. Just three days earlier on August 11th, someone, somewhere released one of the most damaging computer viruses ever written. Blaster. F-Secure Niko Hepannin... Did a computer virus somehow contribute to the Blackout.? Bonnie: We could certainly shut down the United States critical infrastructure; I would assume within a day. Dedicatedly I would give it one week of research; one day to take it down. That means taking out the power grid; it means taking out the communication power; it means taking out probably the military capacity of the United States; to function properly. We would probably go into a police state at that point. [Is that an exaggeration?]. No I don't think so. stormworm alone has infected at least fifty million computers; and it has not been used for anything; so there is this hovering literally perfect storm; of potential attack; so the concern is that if the

storm worm has created all these compromised computers; and in themselves created this almost massive computer; and if very bad people have control of this; they may be able to do very bad things; on a very very big scale.”

The primary cause of stress, depression and anger is, “living in a story and lying to maintain it.”

-- Brad Blanton

Wasn’t what Brad Blanton said to the Stanley Co Sheriff; when he called the Sheriff to get me kicked out of his workshop; before firing me from Radical Honesty.

Wasn’t what Brad Blanton said to my face; when he grabbed me by the throat and stuck his fist in my face; and ordered me to stop setting up a Radical Honesty community network; cause those were his followers; and who the fuck did I think I was to setup a Radical Honesty commuity network so that members of the radical honesty community could network and support each other. They were his followers; not mine.

My response: You better hit me if you gonna hit me; or get your fist out of my face. If you gonna hit me; don’t expect me to provide you with the same response as your tits and ass slut wives.

He took his fist out of my face; and stormed out of the office.

I closed down the Radical Honesty community network pages; and found something else to do in my spare time: put a personal on craigslist.

Wasn't what Brad Blanton said to my face; when he had a fit about me fucking an African American JAG prosecutor; I met on Craigslist; whom I became friends with and then lovers with; while living in his home.

One day a man living with Clive, Ann and Lara; got upset about something Clive said that hurt his feelings. He wanted to come and gossip about it. My response was 'that's just my dad; don't take it personally. If you are upset about it; go and talk to him about it'. The man was furious and tried to strangle me; putting his thumb on my throat; restricting airflow into my windpipe. I did not object; and just lay there looking him in the face. He took his thumb off my neck and windpipe and stormed out of the room. I found him in the garage; throwing up and sobbing like a baby.

"The German commanders still didn't surrender; obedient to Hitler's orders. ... In the Southern pocket the Commander in Chief Paulus took refuge in the cellar of a shop. Although further resistance was obvious; only a few senior officers had drawn the obvious conclusion that the Battle should be abandoned. Gerhard Dengler fought his way through to Paulus command post: "At first I nearly fainted. It smelt of cigar smoke, cognac and fried food. I was furious. The troops were resorting to cannibalism and the Generals had food to fry; and cognac and cigars too. I was seething with rage. I asked "Why don't we surrender?" Paulus replied: "It's easy for you Captain. You have only the enemy in your sights. But at Army headquarters I must consider higher strategic matters." I couldn't see that at all. I thought it had more to do with their miserable cowardice. I was getting furious again and Paulus

noticed. He suddenly said to me. "Captain the time has come for junior commanders to take the initiative." I had to swallow hard. I was furious again. Here were 20 generals all too cowardly to surrender. And he tells me, a captain, "You can take the initiative and surrender; but be it on your own head. And if Hitler orders you shot afterwards, its your bad luck." – [Battle of Stalingrad](#)

*"Today, we Bulgarians present a fine example of what it is to exist under a lid which we cannot lift and which we no longer believe someone else can lift...And the unending slogan which millions of loudspeakers blare out is that everyone is fighting for the happiness of the others. Every word spoken under the lid constantly changes its meaning. Lies and truths swap their values with the frequency of an alternating current...We have seen how personality vanishes, how individuality is destroyed, how the spiritual life of a whole people is corrupted in order to turn them into a listless flock of sheep. We have seen so many of those demonstrations which humiliate human dignity, where normal people are expected to applaud some paltry mediocrity who has proclaimed himself a demi-god and condescendingly waves to them from the heights of his police inviolability." -- Georgi Markov (1 Mar 1929 – 11 Sep 1978) describing life under a totalitarian regime in *The Truth that Killed*; [The Umbrella Assassin](#).*

"[Breivik] emphasizes that if he had not been censored by the media all his life, he would not have had to do what he did. He believes the media have the main responsibility for what has happened because they did not publish his opinions.... The low-intensity civil war that he had already described, had lasted until now with ideological struggle and censorship of cultural conservatives..... He explains that this is the worst day of his life and that he has dreaded this for 2 years. He has been censored for years. He mentions Dagbladet and Aftenposten as those who among other things have censored him..... He says that he also wrote "essays" that he tried to publish via the usual channels, but that they were all censored..... The subject summarizes: As long as more than twelve were executed, the operation will still be a success. The experts ask how the number twelve comes into consideration. Twelve dead are needed to penetrate the censorship wall, he explains..... About his thoughts on the Utøya killings now, the subject says: The goal was to execute as many as possible. At least 30. It was horrible, but the number had to be assessed based on the global censorship limit. Utøya was a martyrdom, and I am very proud of it..... The subject says in the conversation that he knows the truth that is hidden from others. He believes that there is a civil war in the country. He believes he had to kill at least twelve, because there is a censorship-wall preventing an open debate about what is happening in the country..... So I knew I had to cross a certain threshold to exceed the censorship-wall of the international media." -- Excerpts: - Norway v. Bill Haydn/Taylor's confession why he became a British-Soviet double agent: "Do you know whats killing western democracy? Greed and constipation. Moral, political, aesthetic. I hate America very deeply. The economic depression of the masses institutionalized. Even Lenin couldn't foresee the extent of that. Britain. Oh Dear. No viability whatever in world affairs. I suppose thats when it began. Turning my eyes to the east. When I saw how trivial we had become as a nation. .. I still believe the secret service are the nations only real expression of a nations character. Until the mid 50's I still had hopes, lingering loyalties to what we represented. Self delusions of course. We were already America's streetwalkers."

Le Carre: "I waited at the end of the Cold War for somebody to tell us the world can now be reshaped. That endless standoff as it seemed to us; between the two great economic monoliths of the western world and the communist world was over. The excuses for exploiting the third world, for imposing dreadful little dictators on them, provided they were anti-communist. All those excuses are gone. Now something decent could be put together. A real act of global perestroika could occur. Nothing happened. We went into a kind of collective western atrophy of isolation and self indulgence. Our response was to make ourselves fatter and richer and not to take on the world at large. So I felt that a great moment in history had simply gone by default."

"Looking back, I deeply regret that I did not force a probing debate about whether it would ever be possible to forge a winning military effort on a foundation of political quicksand." Robert S. McNamara with Brian VanDeMark, In Retrospect: The Tragedy and Lessons of Vietnam (Vintage, 1995), p. 261.

Empires and/or nations can peacefully coexist; if their military, political and religious leaders agree to require their citizens to procreate and consume below the empire / nations ecological carrying capacity limits. If however, military, religious and/or political leaders advocate on behalf of consumption and/or procreation above ecological carrying capacity limits; then the empire or nation shall be required to acquire the additional resources it requires for its overconsumption/procreation from a neighboring territory. Empires and/or nations shall never be able to peacefully coexist; if their military, political and religious leaders interpret their ‘God’s word – whether it be some omnipotent God in heaven or their own phallic right to breed ego they are worshipping -- to provide for the right of their religious followers to procreate and consume above their empire / nations ecological carrying capacity limits. If military, religious and/or political leaders insist on advocating on behalf of consumption and/or procreation above ecological carrying capacity limits; then they are advocating on behalf of a Masonic War is Peace religious and/or political ideology; and hence their religion is not a ‘religion of peace’; but a ‘Masonic War is Peace religion of war’.

I ain’t into the moronic imbecile leaders and followers thing. I am happy to be anonymous nobody... and to relate to anyone of any race, religion who is sincere about problem solving; or sincere about whatever it is they want to discuss; as simply another village idiot person.

Any sincere relating experience is in and of itself; an each one teach one relating experience; where both individuals are learning from each other in the moment; by sincerely and actively listening to the other, sharing and verifying their interpretations.

As for Masonic War is Peace 'pretend I am the expert slavemaster' and the other is the object and/or subject. Nobody listens; cause they are too busy crawling up each others asses; to pretend they know what they know or hide what they pretend they know; or whatever the fuck it is they are doing. If you look at how some people behave; I wonder if they have ever had one; just one brutally honest sincere active listening conversation with another being; in their entire fucked up lives. How the fuck could they ever begin to listen to another; if they don't listen to themselves; if they don't know what they want; how they are; what their values are; too busy doing everything they think they need to do to be good rape the planet capitalists; with dozens of fake friends and fake family and fake followers.

You ever been a silver service waitress at luncheon of London Marketing CEO's; or royalty or politicians; and listened to their CEO, Royalty or Politician political correct 'my penis is bigger than your penis' fucking 12 year old delinquent conversations?

So, Thanks, but no thanks.

In fact one of the things I have been thinking about; never written about till now; is when the EoP Campaign stuff is transferred to remove all references to my name.....; and to include in my will... that the KGB shall be granted the authority to execute any imbecile; and their entire family; who ever wants to call themselves a follower of mine. As far as I am aware the EoP ideas were ideas psychotronically shared into my consciousness; which I considered and had a 'face palm' moment of 'that's so goddamn obvious; why didn't I think of that; or why haven't thousands of people in history thought of that'? So, I simply listened; and thought they were good ideas; but I don't claim them as my own; Presumably; they were shared with me; at the direction of Timothy or Putin; or someone else. I don't know. I don't claim them to be my intellectual property. How the fuck can some imbecile say they are a 'follower' of anyone else; if they have made fuck all effort to listen and find out whether they are accurately interpreting what the person they are following said? I have never understood why the fuck anyone would want to imprison themselves with fucking moron imbecile followers. Anyway; to each his own. Anyone who gives a fucking ounce of a fuck to listening what I have said; would know I don't want no goddamn dumbfuck followers. When I am gone; anyone dumbfuck enough to call themselves a follower of mine; thereby earns themselves and their entire family a KGB sponsored execution ticket from the planetary genepool; for being a fucking liar. They can follow their syphilitic penises and vagina's or whatever the fuck their fuck honour existential purpose is for being the parasitic rapist of this planet are; but stay the fuck away from pretending they give a fuck about anything I said while I was on this Masonic infested hellhole. I have bust my butt listening to Timothy for 15 years; and I would not insult him or myself by calling myself a follower of his. Why the fuck would I want to follow him; and turn him into an object; if I can simply listen to him, be with him, and be his friend. If I can cooperate with him; when we agree; and engage in sincere active listening when there are possible differences in our opinions about any issue. I'd rather have one sincere active listening friend; than ten thousand or million followers.

I don't have a problem with others choosing to have followers; if it what they wish to accomplish; for what they consider their existential purpose or whatever; that's fine.

I prefer a sincere friend; or friends to followers.

If any individual has followers and they are attempting to accomplish some goal; and I can help him or her to enable them to have a more honest leader – follower relationship; so as to more effectively accomplish whatever goal they intend to accomplish; that's fine; if that's what they want and I have skills that can help; great; but I don't want any of their or anyone' else's followers.

For the hard of hearing: See: Authorization to KGB of any dumbfuck who pretends they are my follower without asking my permission.

NB: Ecology of Peace observations and interpretations caveat:

Any interpretation herein implied of another persons motives could be anything from 0% upto 100% correct or incorrect. Until confirmed; they are only working hypothesis interpretations; NOT FACTS.

Reminder: Factual Reality is founded upon FACTS: if overt: what happened, who said what, who did what to whom, how and when. We create the world by noticing who, what, when and how via our senses of sight, sound, smell, taste, and touch. Interpretive Reality is founded upon the INTERPRETATION OF FACTS: Generally speaking when we consider 'why' the observed individual overtly or covertly did or said what and how and when; we enter into subjective interpretive reality. If the whom, when, how or what act is not factually unequivocal -- i.e overt -- but covert and hidden; then a puzzle combination of smaller evidentiary facts can enable an interpretation of 'how'; 'when'; 'who' and/or 'what'. There may or may not be something wrong with me. If or when evidence is provided for such allegation I shall consider it.

Whatever any individuals goals are; irrespective of race, class or religion: my Ecology of Peace Radical Honoursty culture advice is the same.

Radical Honoursty marketing advice is very very different to Masonic War is Peace Marketing advice.

Ecology of Peace Radical Honoursty marketing advice:

Identify who you are; so that you know yourself.

Sometimes the process of finding yourself is in finding out what you thought you wanted; and when you get it; you realize it does not fill the whole of not knowing yourself; and was a waste of time and resources.

Once you know yourself; you can know what you want. Its not possible to know yourself; if you are not wiling to be honest with yourself. The more honest you are with yourself the more you will know yourself; and be able to be honest with others. .

Once you know who you are and what you want; you can begin to clearly define what you want. Engage other people who want the same goal; to cooperate and collaborate on creating a more accurate definition of what it is that you want together; so that you can clearly communicate whatever it is you want from other people; to help you to get what you want.

Be buck stops here 100% honest about what you want.

Consequences and Benefits of 100% Honesty: You may find less people who will agree with you or want what you want. You may find that nobody else on the planet wants what you want; but you will have been buck stops here honest with everyone and never lied to anyone. You may find that some people do not agree with what you want on one issue; but they may share your idea about what you want on some other want you have. So you can agree to disagree on your one want; and cooperate on any other want you may have. If you don't waste their time on the one issue; then they may be quite happy to cooperate on the other

issue. At the end of your life; even if you did not get what you want; on some or even many of your preferred wants; you will have been true to yourself; and you will know that you never engaged in deceptive lies to get what you want.

You were walk your talk buck stops here honest; with friend and foe.

Masonic War is Peace Marketing:

Masonic War is Peace marketing – most of which is dominated corporations staffed by fuck honour kaffirs calling themselves Aryan -- involves being vague, passive aggressive and using covert subliminal sexual and other bullshit to market their products; as they rape the planet resources; making sure that there will be fuck all homeland for anyone from any race.

Masonic War is Peace marketing works like this: Be less than clear and honest about what you want; and engage in bullshit the public relations image management marketing to deceive people to support you to get what you want. You will sell your soul for 30 pieces of silver; to earn awards and fill the planet with filth. Your credibility as a humane individual who cares about others will go down the toilet. You will anger allot of people who feel deceived by your vague marketing. You will anger others by the pollution consequences of marketing filth to be purchased and turn the planet into a toilet. Some of those deceived by you may be so angry and drag you to court for fraud. Your fraud may be of such horrific proportions that even head in the sand Masonic courts and prosecutors who themselves are massively engaged in rape the planet fraud; will be unable to deny the level of your fraud; and convict you of fraud and you will end up in prison. If you are lucky you will be in a single cell. If you are not lucky you will be in a big dormitory cell with lots of non-white people very angry at people with your colour skin. If you do not end up in prison; for your fraud; you will spend your entire life doing nothing but marketing shit; to turn the planet into a toilet for your children and or grandchildren to wake up being gangraped by justifiably very very angry third world savage primitive noneuropeans; whose countries resources and cultures have been raped by your fuck honour greed of marketing shit.

Re: What do you want: White Homeland

I have no interest in a white homeland; if by 'white homeland' you mean the conventional 'white homeland' stuff as per the fuck honour War is Peace marketing of Boers and Afrikaners Volksraad; or Harold Covington's North West Republic; or pretend he gives a fuck about ethno-nationalist secession homelands of Sebastian Ronin.

If that is what you mean by 'white homeland' you should contact them; and collaborate with them or whichever one's are the closest to your 'white homeland' definition; if you can get any of them to provide you their 'white homeland' definition.

As noted in Jus Sanguinis efforts: I was aware of other South Africans who want to return to Europe and who want a Boer Volkstaat; and so I thought we could collaborate and cooperate to share what they want and what I want. I was wrong. It turned out they did not even really want a sincere homeland; all they wanted to do was pretend they want a white homeland.

Sort of like a fat man who goes to weightwatchers; while stuffing his face with chocolate; he informs the weighwatchers counselor he wants help to lose weight. When the weightwatchers counselor informs him that he shall have to eat less chocolates and get some exercise; he refuses. So did he sincerely want to lose weight; or was he only pretending he wanted to lose weight. Exactly: Only pretending.

Same with Radical Honesty cult: They told me they were working to build a future world based on honesty. Well turned out they don't give a fuck about a future world based on honesty; particularly not honesty with niggers or spicks or any non-Europeans. When it came to honestly confronting reality about earth not being flat and that they were going to have to be honest to educate others to cooperate and reduce their breeding and consumption to below ecological carrying capacity limits; their desire for honesty vanished. All of a sudden I was 'crazy' and was not 'enlightened' I didn't 'get it'; there was something massively wrong with me. Honesty with niggers and spicks? I must be goddamn fucking mad. Niggers and spicks and muslims don't deserve honest relations with white liberals. Not even white conservatives deserve honest relationships with white liberals! So as for being honest with niggers and spicks and other nonwhites about reducing their breeding; these so-called 'we give a fuck about honesty liberals' crowd; these pretend we give a fuck about honesty crowd; suddenly decided that 'honesty with niggers about breeding less' is 'racist'. So did those fuckers really want a world based on honesty; or were they only pretending? Exactly. They were pretending. Worse than the White Homeland pretenders; these people were swearing high and low they were 'radically honest'. Yeah right.

So now I am way less willing to believe the shit when some individual says 'I want this or that'. You get my benefit of the doubt; when your actions match your words; when you are willing to engage in EoP buck stops here communication; and if your actions don't match your words; you can fuck off; cause I am not going to invest my time and resources to help someone – like I did before – who is only pretending they want this or that.

So my advice:

If you want my – Lara Johnstone – help:

- Decide who you are and what you want.
- If you want a white homeland; buck stops here clearly define what you mean by a white homeland.
- Decide whether you want to find people who are interested in your white homeland by means of EoP marketing or WiP marketing.
- If EoP marketing we can talk further;
- If an EoP international law social contract is implemented – **BIG IF** – then of course based upon its fully informed consenting principles values; racial groups or religious groups or gender groups or any group of individuals who share a particular cultural or sub-cultural value; shall be able to live in a type of 'cultural homeland' of their shared cultural values; as long as their cultural values abide by the EoP international law social contract basic principles of: breed and consume below ecological carrying capacity limits and engage in fully informed consenting agreements; and cheaters of those EoP social contract values; are eliminated from the genepool.

If WiP marketing; I suggest you contact the copied 'white homelander's' whose definition of 'white homeland' fits your white homeland definition.

P Caplan & M Hagen: Re: credible experts; psych researchers fear of context; draft of EoP Homer Lea bio; STRATINT

I received your “What is this, and why did I receive it?” and “Me, too. What is? Why me? I trashed it.” correspondence response to the transparency copy of [Draft of EoP Homer Lea bio; STRATINT; credible experts; psych researchers fear of context. Correspondence](#).

It is unclear if your questions are a result of you not reading the correspondence; or whether you read it and did not understand anything in it; or whether you simply engaged in a bullshit the public relations marketing pretend I am interested response?

If you did not read it:

“The problem with being too busy to read is that you learn by experience (or by your men’s experience), i.e. the hard way. By reading, you learn through others’ experiences, generally a better way to do business, especially in our line of work where the consequences of incompetence are so final for young men. Thanks to my reading, I have never been caught flat-footed by any situation, never at a loss for how any problem has been addressed (successfully or unsuccessfully) before. It doesn’t give me all the answers, but it lights what is often a dark path ahead.

For all the “4th Generation of War” intellectuals running around today saying that the nature of war has fundamentally changed, the tactics are wholly new, etc, I must respectfully say ... “Not really”: Alex the Great would not be in the least bit perplexed by the enemy that we face right now in Iraq, and our leaders going into this fight do their troops a disservice by not studying (studying, vice just reading) the men who have gone before us.

We have been fighting on this planet for 5000 years and we should take advantage of their experience. “Winging it” and filling body bags as we sort out what works reminds us of the moral dictates and the cost of incompetence in our profession. As commanders and staff officers, we are coaches and sentries for our units: how can we coach anything if we don’t know a hell of a lot more than just the [Tactics, Techniques, and Procedures]? What happens when you’re on a dynamic battlefield and things are changing faster than higher [Headquarters] can stay abreast? Do you not adapt because you cannot conceptualize faster than the enemy’s adaptation? (Darwin has a pretty good theory about the outcome for those who cannot adapt to changing circumstance — in the information age things can change rather abruptly and at warp speed, especially the moral high ground which our regimented thinkers cede far too quickly in our recent fights.) And how can you be a sentinel and not have your unit caught flat-footed if you don’t know what the warning signs are — that your unit’s preps are not sufficient for the specifics of a tasking that you have not anticipated?

Perhaps if you are in support functions waiting on the warfighters to spell out the specifics of what you are to do, you can avoid the consequences of not reading. Those who must adapt to overcoming an independent enemy’s will are not allowed that luxury.

This is not new to the USMC approach to warfighting — Going into Kuwait 12 years ago, I read (and reread) Rommel’s Papers (remember “Kampstaffel”?), Montgomery’s book (“Eyes Officers”...), “Grant Takes Command” (need for commanders to get along, “commanders’ relationships” being more important than “command relationships”), and some others.”

As a result, the enemy has paid when I had the opportunity to go against them, and I believe that many of my young guys lived because I didn’t waste their lives because I didn’t have the vision in my mind of how to destroy the enemy at least cost to our guys and to the innocents on the battlefields. — [Gen. If you read it and did not understand any of it’s Ecology of Peace terms:

I sent it to you because I thought some of its contents may be of interest to you and your critical psychology colleagues; considering your status as a ‘critical psychiatry’ professionals;

and prior EoP correspondence to you and hundred of mainstream and critical psychiatry officials – See for example Ref link under your Email addresses – enquiring whether any of you would be interested in cooperating in EoP root cause problem solving of what you refer to as ‘mental disorders’; or even in clarifying how or where EoP root cause problem solving principles were in error; and if so EoP Applicants would amend them.

If my interpretation as to your possible interest in root cause problem solving was inaccurate; feel free to let me know so that I can remove you from this correspondence; and/or feel free to delete; and my apologies for bothering you.

My interpretation of you being a ‘critical psychiatry expert’ is based upon among others: my knowledge of your critical psychiatry book: [They Say You're Crazy: How The World's Most Powerful Psychiatrists Decide Who's Normal](#), and [Losing Labels to Find Ourselves](#)

The correspondence in question made reference to Ecology of Peace culture’s perspective on strategic intelligence; credible experts and the drafting of Homer Lea biography; which included excerpts of Prof Mary Boyle’s – [Is clinical psychology fearful of social context?](#). *Why we might be, why it matters and what we might do about it* – speech.

“I got the very powerful impression that Laird and Clark seemed to sense that fully engaging with context would make it much more difficult to pursue their core arguments that the main causes of misery are anxiety and depression. That the major reason for misery's persistence is how people think; and that a major part of the solution is individual therapy. Now it certainly complicates funding discussions with government; as you can imagine, if they did engage with context. So this brings me to my second question, what is it about confronting well evidenced role of social context; in both the development and the persistence of mental health problems; which seems so difficult even threatening. I think there is quite a few possibilities and I'll deal with a few briefly. But familiarly over all of them is both our insecurity as a discipline and a profession. So the threats are: Its not science. Its not psychology. Creates feelings of helplessness. Need for acceptance by Psychiatry. Involves telling truth to power. Now psychology as a whole is intensely concerned about its academic and social acceptance; as a science. Jim Orford once said "We still suffer from an inferiority complex making us do things just because they appear scientific. So we emphasise our similarity to the biological and natural sciences. We give the highest to the methods of the natural sciences. We are also very preoccupied with avoiding accusations of social and political bias; of being influenced by subjective values; rather than objective facts." Why our avoidance of context matters so much, the major implication is that our theories and research are always potentially influential. Whether we approve it, intend it or whether we are even aware of it; what we say and do will have influence in so far as particular psychological ideas become part of a construction of reality; which can then be drawn on by those with the power to frame social problems and their perceived solutions. ... It suggests that when we as psychologists conceptualize people and their problems; it becomes a kind of cultural resource; and above all, a relation to this avoidance of context; I think this model shores how our theories can help maintain the social and economic status-quo. .. through narratives of justification. Now its often been pointed out that maintaining harmful social practices or inequalities; usually needs some sort of public story; which makes them seem reasonable. And if we look at it from the point of view of those who benefit from inequalities; an especially powerful narrative is one which distracts attention from context; which could help us understand why some groups are persistently disadvantaged or suffering; why their behaviour seems difficult; and instead focuses on mental or biological characteristics; which seem to explain these outcomes. Historically psychology has provided a major role in providing these narratives. ... Now it's important to emphasise that we don't intend social harm, but our profession simply has to provide the intellectual framework -- and of course give it scientific respectability -- others will do the rest. ... Context also make it much more difficult for those in power to avoid addressing the psychological impact of social and economic policies; and also they are not

incompatible with helping individuals. I don't think its an exaggeration to say that clinical psychology is at a watershed in terms of who we are and what we stand for. I hope we will acknowledge that how we relate to social context is absolutely central to those questions; and I also hope we will choose to implement the conference theme in major and very public ways. I think we can be both confident that we have a scientific and ethical mandate, but also I think we may be surprised at just how many allies we would have."

The excerpts of Ms Boyle's speech was followed by EoP commentary on WiP – aka Masonic War is Peace – psychology; addiction to profiteering of misery.

Both sides of the Masonic War is Peace – namely the 'mental disorders exist' and the 'mental disorders don't exist, psychiatry is a fraud – divide are afraid of confronting their 'fear of context' research mistakes.

In their case including context – such as: could what they call 'mental disorders' simply be the canary on the frontlines in the Masonic War is Peace toxic culture coalmine; whose cognitive and behavioural coping mechanisms symptoms of individuals experiencing racial, ideological, class or cultural existential identity and/or resource conflict anxiety resulting from population pressures colliding with declining resources; which are the direct consequences of the 'right to breed and consume with total disregard for ecological carrying capacity limits' clauses of international law social contract? -- in their research for the 'causes of mental disorder misery; would result in them either (a) admitting their mistakes and enaging in truthseeking research; or (b) ignoring the canaries; covering up their mistakes; and ultimately psychiatry and psychology drive their 500 tonne train over their 'fuck ecological carrying capacity gravity laws' 'matchstick bridge'.

[EoP RH Culture Info](#) has more info on EoP culture's perspective on WiP 'fuck ecological carrying capacity gravity law's matchstick bridges.

In fairness to Brad Blanton; although he also refuses to acknowledge context in his 'noticing' radical honesty practices – as noted in 01 Feb: [RH Fraud: McVeigh Faked Execution](#); [Ecofootprint Shrinking Lifeboat Ethics](#) – or to inform his misery induced clients of the root population pressures colliding with resource depletion conformity pressures source of their ego-identity and/or resource conflict psycho-social conflict misery; he does admit – quoting Pema Chodron – that he profiteers of others misery; as noted in: [What is Radical Honesty 01, 02, 03](#).

What does fuck honour infantile kindergarden [playing with his lego's](#) Dr. Blanton want? From my experience: He thinks he wants to help others problem solve the causes of their misery; but he can't grow up to buck stops here tell them the truth – heaven forbid he might offend fragile ego crackers, niggers, spicks or japs and be called a 'racist'; by fuck honour liberals, like him – so he'd rather profiteer of their misery; while withholding from them information about what they can do to cooperate with others to eliminate the root causes of population pressure resource depletion psycho-conformity resource conflict pressures.

I also know liberal progressive African women who have absolutely no problem with responsible procreation. They grew up in a South African township that make American ghetto's look like bourgeois upper middle class suburbs and took responsible procreation way beyond 'responsible sex' to no sex at all. They were still virgins at the age of 26. One of them got married and she was still a virgin. They obviously would not be threatened at all by the implementation of an international law social contract; that would require them to procreate below ecological carrying capacity limits; any more than Caster Semenya is threatened by going for a jog.
